Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Use cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness cured by Catarrh that cannot be cured by local Catarrh Cure. Send for circulars, free.

There is some difficulty in getting proper medical attendance for the patients and at the same time observing the necessary precautions. The salary of the city physician is only \$20 per month and of course no competent man can afford to attend the cases at that figure, as the one who does must give up his other practice. It is understood that City Physician Condon is anxious to resign, having practically tendered his resignation. He will, however, serve until another is selected.

CALLS GOVERNOR OF MINNESOTA "BLATANT POLITICIAN."

Is Angry at the Executive's Outspoken Sympathy for the Boers Fighting For Liberty.

Minneapolis, Minn., March 3.—E. H. Morphy, British vice-consul at St. Paul, is being severely criticised today for his speech at a meeting of British-born citizens here last night, in which he spoke of Governor Lind as a "blatant politician," who, in proclaiming his sympathies with the Boers, was prostituting his office for votes.

Governor Lind has been urged to make complaint to the federal authorities. He has declined, however, to take notice of the incident.

Morphy declared that he is an American citizen, and spoke last night as an American citizen, as was his right. He looks after the consul's business incidentally, and is not sent here as a direct representative of the British government.

An opinion is not expected for several days. When it is announced, an appeal will be taken to the state court of appeals, which, the Democrats claim, has final jurisdiction. The Republicans, however, will try to bring the case before the United States supreme court if the decision is against them.
